Professional Summary

Full-Stack Developer with 4+ years enterprise experience in Salesforce platform development, system integration, and ML automation. Technical expertise in Lightning Web Components, Apex, blockchain development with Solidity, and delivering scalable B2B solutions.

Work Experience

Telefónica Germany GmbH & Co. OHG

TECHNICAL DEVELOPER

Mannheim, Germany

Jan. 2021 - Present

- Eliminated manual data entry by building Salesforce-to-Salesforce RESTful API synchronizing orders in real-time and developing Lightning Web Components with Apex managing 1.4M customer accounts.
- Showcased emerging blockchain technology in corporate innovation lab by building SSO web app with Next.js, implementing World Coin authentication with biometric iris hash stored on-chain and wallet-based identity verification.

CS Development

FOUNDER & LEAD DEVELOPER (PART-TIME)

Munich, Germany

Mar. 2019 - Aug. 2021

- Acquired 15+ e-commerce clients alongside studies by founding startup delivering custom full-stack web applications.
- Increased organic traffic and conversion rates by optimizing SEO metadata, implementing structured data markup, and improving page load performance.

Giesecke+Devrient (G+D)

SOFTWARE DEVELOPMENT INTERN

Munich, Germany

Sep. 2019 - Mar. 2020

- Streamlined OS installation for payment card production by developing cross-platform GUI application in Python.

Avast Software

SOFTWARE ENGINEERING INTERN

London, United Kingdom

Aug. 2018 - Sep. 2018

- Enabled users to monitor website tracking activity by building Chrome extension with custom authentication (password salting/hashing) and dashboard displaying Avast security data.

Side Projects

NFT Factory & Minting Platform – Production-Ready dApp

Solidity 0.8.27, Next.js 16, React 19, TypeScript, Wagmi v3

FULL-STACK WEB3 DEVELOPER

2025

- Enabled users to launch custom NFT collections by building Factory contract (Solidity 0.8.27) that deploys ERC-721 contracts with user-defined names/symbols, auto-mints tokens, transfers ownership, and sends NFTs to user wallets.
- Delivered comprehensive Web3 platform with Next.js 16/React 19 by implementing one-click NFT minting, transaction explorer for contracts/wallets, real-time gas price dashboard, active ETH node monitoring, and multi-wallet authentication via wagmi v3.

Education

DHBW - Baden-Wuerttemberg Cooperative State University

Mannheim, Germany

BACHELOR OF SCIENCE (B.Sc.) - BUSINESS INFORMATICS | SPECIALIZATION: DATA SCIENCE & MACHINE LEARNING | DUAL

Jan. 2021 - Sep. 2024

STUDY PROGRAM | GPA: 1.8/1.0 | CORPORATE PARTNER: TELEFÓNICA GERMANY

- Bachelor Thesis (1.3): "Blockchain Identity Solutions in Telecommunications" - Decentralized KYC with biometric verification and zero-knowledge proofs.

Certifications

Alchemy University - Ethereum Development Bootcamp

Online (Credential ID: ACU-2023-EVM)

EVM CHAIN DEVELOPER CERTIFICATION

Mar. 2023

- 8-week Ethereum development program covering Solidity, security best practices, and dApp architecture.

Makers of Tomorrow Germany

Munich, Germany

ENTREPRENEURSHIP PROGRAM CERTIFICATE

Mar. 2023

- 12-week startup accelerator - pitched unified payment system using lightweight blockchain architecture.
